

KILI QUESTS KILIMANJARO PACKING LIST

IMPORTANT NOTES

One key aspect of climbing Kilimanjaro successfully is to have proper trekking gears. We are listing here recommended trekking gears that you can bring for Kilimanjaro trek. The number of items we recommend is minimum. You should consider how well you know your body for certain items such as T-shirts, Gloves, socks, etc.

Note that most of these items can be hired here in Moshi, Tanzania. So, you can consider buying only those items or brands that you really wish to have that we can't get in Moshi. Remember, always travel light. You will reduce luggage weight and risk of losing some of your items on travel.

If you wish to hire trekking equipment, please let us know via email: info@kiliquests.com
